3164 Barons Road
Nanaimo BC
V9T 4B5

Attention: Mike Sinclair

Year 2008 SEBASE Maintenance Audit

Congratulations you have successfully met the SAFE Companies maintenance audit standard for small companies.

Enclosed please find the SEBASE Audit report recently conducted on your company by the SAFE Companies Quality Assurance Team. After our quality assurance review, your score on the SEBASE audit was determined to be **25/27** based on the **Employer with No Contractors category**. Detail results and recommendations for continual improvement are provided for your review.

Your second maintenance audit is due on or before **Oct 24, 2009**
Your recertification audit is due on or before **Apr 24, 2010**

As a vital component of the program audit the company will be required to submit the previous year's Corrective Action Log (CAL) together with the new audit to show continuous improvement in the company's safety program for report submissions of each successive year.

The BC Forest Safety Council will be notifying WorkSafeBC of your current status for the purposes of WCB rebates.

If you have any questions please contact the Quality Assurance Team in our Nanaimo office.

Thank you for your commitment to safety and participation in the SAFE Companies program.
